AZBOSCOCHMIS
CLIENT RELEASE OF INFORMATION**

I acknowledge that the Arizona Balance of State Continuum of Care Homeless Management Information System (AZBOSCOCHMIS) is used by provider agencies that work together to provide services for those experiencing homelessness. I acknowledge that Client information assists the agencies to plan for and provide services for me, as the client and my family (if applicable). This information will be shared among agencies to provide coordination and delivery of those services. I understand that all information entered into HMIS is protected by passwords and encryption technology and that steps are taken to safeguard the information that is entered into HMIS.

Every project that receives federal homeless project funds from the U.S. Department of Housing and Urban Development is required to enter data on persons served with those funds into the AZBOSCOCHMIS. Some projects funded through the U.S. Veterans Administration and the U.S. Department of Health and Human Services may also be required to enter data into HMIS.

I acknowledge that HMIS agencies that offer services may enter, see, and update information about me and/or my household members (if applicable) including name, gender, race, ethnicity, date of birth, veteran status, proof of homelessness, income, insurance, disabilities, and service transactions. Any agency that views my information must keep it confidential and use it for program purposes only. My decision to grant or not grant permission to share my information will not affect services provided for me. I understand that I may withdraw my consent at any time, except for information that has already been given out or actions already taken, with a signed and dated statement. I have a right to see my record, ask for changes, and receive a copy of my record upon written request. This ROI will be in effect for one year from the date of signature.

Initial here if you **DO** wish to share all of your information with the agencies listed below. This includes any information currently in HMIS.
